

Holscher Powder Coating Limited Warranty

Holscher Powder Coating (“HPC”) offers a limited warranty on material and workmanship for all powder coated parts for a period of one (1) year commencing on the date of final coating application. HPC will guarantee against powder coating adhesion, fading, or flaking due to defects that are a direct result of a failure in the HPC powder coating process. If any customer requires additional warranties, then such must be agreed upon (in writing) prior to HPC processing the order.

Due to a variety of factors that are out of the control of HPC, our warranty is limited. HPC reserves the right to determine the cause of any powder coating failure. If HPC deems a failure was caused by anything in the powder coating process, we will recoat the item(s) at our own expense. HPC shall not be liable or responsible for any costs associated with take down, transport, reinstallation, deliver, any end user fees, consequential damages or lost profits.

The following are exclusions to the HPC Powder Coating Limited Warranty and any of the following shall void this Limited Warranty:

- Items damaged due to not being able to withstand heat of (425°F) or the blasting process.
- Items that are built with incorrect fabrication or design.
- Weld seams or assembly overlays that retain oil, water, or blast media.
- Mishandling that may cause damage to the coating by the customer during shipment and assembly of the product.
- Items not originally coating by HPC, or any items that HPC is requested to recoat.
- Tubes that do not have weep holes.
- Parts with sharp edges that do not allow for sufficient coating coverage.
- Parts that have mill scale or laser scale that has not been removed.
- Welds that are not fully wrapped
- Contact with a corrosive chemical, fertilizer, or salt water
- If the customer supplies HPC with raw material for the powder coating job
- Parts that get damaged in transportation
- Parts damaged by acts of God
